Software Solutions

**Infotrack**

**Infotrack** - an intelligent & integrated system catering to the needs of an automotive dealer - is a complete web-based business solution that can provide exhaustive information and management control to formulate strategies and have a tight grip on automotive operations such as sales, parts and services.

Being a flexible and scalable system, it addresses dealers having single or multifranchise operations at one or more locations, functioning efficiently in basic establishments as well as large automotive business houses.

<b>Infotrack Address</b>	<b>Highlights</b>

**CMMI DEV / 5**<sup>SM</sup>  
Exp. 2019-02-26 / Appraisal #26291

Since its inception in 1999, SRIT has strived for excellence and thoroughness in the IT sector, with the goal to harness the potential technology has to permeate an industry and transform it at every level. We focus on verticals where large-scale operations and process lifecycles can be streamlined via a single technology, thereby enabling that domain to accomplish exponentially more than it was previously capable of doing. As such our primary focus is on transforming industries such as healthcare, governance and telecom and automate them from start to finish, such that their benefits ripple out to a far greater number of people in a much shorter span of time.

We've been recognized as 2015's 'Brand of the Year' for Healthcare Managed Services by Silicon India. We are a CMMi DEV/5 company as well as the world's first SSE-CMM Level 5 assessed IT company.
