PeopleConnect

PeopleConnect is a web-based HR system with the right combination of functionality and reporting tools to effectively handle all HR functions. There are case studies proving significant reduction in the amount of paper work and time spent. The application interacts with all the organizational members, encapsulating the functional processes of the HR department and automating the same. It takes care of all the HR activities - right from pre-employment to post-employment. The application has multiple modules like Personnel Management, Leave Management, Training Management, Request Management, Help Desk Management, Appraisal Management with Competency Measurement, Recruitment Management, User Permissions, Personalized Homepage and other utilities to meet the requirements of an organization. The workflow is built through approvals, escalations, override and mailing.

- ✓ Benefits and Compensation
- ✓ Administration
- ✓ Payroll
- ✓ Pension
- ✓ House Maid
- ✓ Tickets

CMMI DEV / 5SM
Exp. 2019-02-26 / Appraisal #26291

Since its inception in 1999, SRIT has strived for excellence and thoroughness in the IT sector, with the goal to harness the potential technology has to permeate an industry and transform it at every level. We focus on verticals where large-scale operations and process lifecycles can be streamlined via a single technology, thereby enabling that domain to accomplish exponentially more than it was previously capable of doing. As such our primary focus is on transforming industries such as healthcare, governance and telecom and automate them from start to finish, such that their benefits ripple out to a far greater number of people in a much shorter span of time.

We've been recognized as 2015's 'Brand of the Year' for Healthcare Managed Services by Silicon India. We are a CMMi DEV/5 company as well as the world's first SSE-CMM Level 5 assessed IT company.
